THE DEFICIENCY BILL.

The Appointment of Marshals and other Matters

[SPECIAL DISPATCH TO THE OREGONIAN.]

WASHINGTON, March 27—The senate committee on appropriations to-day practically completed the consideration of the immediate deficiency bill. The committee has agreed to recommend the addition of $256,500 to facilitate the speedy completion of the new state, war and navy department building. The amount of the house appropriation for marshals and deputies will not be changed but the committee has decided that amendments should be made in the phraseology of the clause relative to the future method of appointing deputy marshals of elections. The house provision [illegible] the subject requires their appointment by the United States circuit and district judges but the committee provide that all officers shall be appointed by the president with the advice and consent of the senate with a proviso that congress may by law vest the appointment of such inferior officers as it thinks proper in the president or heads of departments or courts of law. The committee therefore proposes to vest the appointment of federal marshals in courts instead of conferring it upon individual judges.

SIGNIFICANT COMMENT

Two Prominent Southern Papers Come Out in Favor of Kellogg and Against Spofford on General Grounds

[SPECIAL DISPATCH TO THE OREGONIAN.]

RICHMOND Va March 28—Friday's issue of the Dispatch copies with approval a very significant editorial contained in the Wednesday's number of the Charleston News and Courier on the Spofford-Kellogg case. Both of these influential democratic journals foreshadow a division in the ranks of democratic senators upon this question which seems extremely likely to result in Kellogg retaining his seat and leaving the question of the control of the next senate in its present state of uncertainty. The Charleston paper is known to reflect the views of Senators Butler and Wade Hampton. The Dispatch says:

When a senator is seated especially when he is seated after a contest, as was the case with Mr Kellogg the question ought to be considered as finally settled as far as his title to the seat is concerned. If he does anything afterward which would justify his exclusion from the senate he ought to be expelled for that reason. His credentials ought never to be called in question again. It ought to be so held in the senate as in courts of justice that adjudicated points must stand as settled. If Mr Kellogg may now be ousted there is no reason why Mr Butler should not also be ousted if two or three senators have changed their minds as to the right to his seat, since he and Kellogg were both declared lawful members of the senate. Two years and more have elapsed since Messrs Butler and Kellogg were seated and it surely is time that their right to their seats should be considered as settled. But a convincing reason why Kellogg should not be unseated is furnished by the News which clearly shows that Messrs Butler and Kellogg were both seated in accordance with a distinct understanding between certain republican and democratic senators that both were to share the same fate. There can be no excuse for an act of bad faith and that the unseating of Kellogg would be such an act appears from the records of the senate.

CRIMINAL CALENDAR.

Whisky's Work.

PITTSBURG, March 28—About 10 o'clock last night an affray occurred in a saloon at Greensburg, Pa, which resulted in the death of a man named Chiselm. It appears that Chiselm's wife had ordered Mac Dixon, proprietor of a saloon, not to sell her husband liquor. Chiselm, who was somewhat intoxicated, called at the saloon and ordered drinks which were refused. He then quarreled with Dixon who knocked him down and falling on his head his neck was broken. His body was then taken outside and placed against the house where it was found by the sheriff. Dixon was arrested and lodged in jail this evening. He bears a bad reputation having already served a term in prison.

PENDING MINING LEGISLATION.

Report of Col. Mendell, U. S. Engineer, on the California Debris Question.

WASHINGTON, March 27—The secretary of war to-day transmitted to the house of representatives, in response to Berry's resolution, the report of Col Mendell, concerning the effect of deposits of mining debris upon the Sacramento river and its tributaries. The main points of the report have been already published. It recommends an appropriation of $250,000 to be expended in the construction of works to prevent loose mined debris now in the canyons and gorges from being washed down into the streams, and also to defray the cost of further investigation of the whole subject by government engineers. The bill introduced by Berry proposing the appropriation of $500,000 for the double purpose of improving the present condition of navigable waters already injured by debris, and of preventing further injury of the same kind is still before the committee on commerce, who in the absence of any department recommendation or regular survey and estimate for the purposes named in the bill are unwilling to act upon it. The mining committee, however, while holding that the subject of improving rivers by removal of existing obstructions belongs to the commerce committee, have acted favorably upon Page's joint resolution providing for a commission to investigate the general mining debris question and have blended with it a provision for an appropriation of $250,000 to dam up detritus in the future, and thus prevent additional injury. Berry having been authorized by the mining committee to report this bill is now preparing an argumentative report to accompany it in which he will quote the most striking portions of Colonel Mendell's communication, and also set forth the results of an examination made by a state board of engineers.

A Protest from Colorado and Arizona.

Representative Daggett and Delegate McGinnis appeared before the house mining committee this morning and requested a hearing in opposition to changes opposed by the public land commissioners in the present mining laws and especially to protest against the contemplated abolition of the present system of ledge locations. The committee informed them that full opportunity will be given for argument of these topics after preliminary examination of the bill shall have been concluded, it being the purpose of the committee to have it printed with all amendments they agreed upon and thereafter to go back to the most important points for final action.

CENTRAL AMERICA

The Usual Thing

PANAMA March 19—The Star and Herald says that news from the interior of the republic indicates continued troubles in Antioquia. Isaacs, who overthrew the government of Restrepo, announces that he is in quiet and peaceable possession of the government of that state, asserts his adhesion to the government of the union and has sent a commission to Bogota to solicit recognition of his government by Gen Trujillo. The latter replied to the friendly offices of Isaacs by sending several battalions of the Colombian guard which, with such aid as they may obtain from Restrepo's friends in the state, are expected to reach to depose Isaacs and restore Restrepo to his lost presidency. A [illegible] is [illegible] out and its [illegible] limits are unknown.

Mysterious Movements of American Vessels

PANAMA March 18—The secretary of state for the government of Panama [illegible] the United States consul in this city advising him that [illegible] two American ships [illegible] Bocas Del Toro engaged [illegible] and [illegible] operations and examining [illegible] of Chiriqui and [illegible] [illegible]. The [illegible] [illegible] the condition or its object and has referred the correspondence to his government for [illegible] and instructions. Considerable feeling exists among the natives in consequence of this news and the mystery which surrounds the affair rather intensifies the feeling than otherwise.

The U. S. of Colombia Don't Like our Stand on the Canal Question

PANAMA March 4—Colombians are much exercised over reports from Washington that the American government will oppose the construction of a canal by a foreign company. They say that they want no protectorate—neither French or American and will submit to neither without striking back as hard as they can. They are strongly incensed at the slight offered Colombia that she is not to be allowed the right to grant a concession to private companies other than American or without asking permission from the United States.

THE CHINESE QUESTION

Majority and Minority Reports of the Hendrick B. Wright's Labor Committee

SPECIAL DISPATCH TO THE OREGONIAN

WASHINGTON March [illegible]—The minority report of Representatives Sherwin of Illinois and Martin of North Carolina, members of Congressman Hendrick B Wright's select committee appointed to inquire into the causes of the depression of business and labor, is printed to-day. They think that the evidence taken in California discloses severe depression of labor and business there. But they cannot assent to all the statements and conclusions of the majority report. They cannot agree with them in ascribing the depression which exists entirely to the presence of Chinese. Other causes have operated to bring about that state of things. They say that evidence shows that after the discovery of gold in California all kinds of business were unnaturally stimulated. Immense public works were under construction for several years causing an unusual demand for labor; prices of all kinds including that of labor were abnormally high and speculation and expectations of making or securing fortunes without work became common among all classes of people. These things had created a state of business and society was ill prepared to withstand the changes caused by a cessation of the great improvements and diminished extent of their mining operations which afterward took place. Business and labor have not adjusted themselves to the changed condition of affairs and until they have done so depression must of necessity exist and no legislation can prevent it.

The undersigned also think that with business depressed and many laborers out of employment the presence of a large colony of Chinese among those who labor for greatly reduced wages and who invade the ranks of skilled and unskilled labor alike and who also carry on farming and many branches of manufacture and trade has increased and aggravated the trouble, and led to tumult and confusion among the people. An American who believes that the glory of his country consists in the comfort, intelligence and prosperity of its artisans and workmen which can only exist when their toil is reasonably compensated, cannot but look with great concern upon the coming of large numbers of Chinese laborers to our shores. The existence of large bodies of Chinese in any American community tends to debase all labor. They come and always remain strangers. They have no conception of our state of society or our political institutions and have never shown any ability or desire to understand them or to conform to our customs or laws.

They come here under contracts to labor which are really badges of servitude as they do not receive themselves the wages earned by them. They bring no families with them and they live on a scale of economy which no American laborer can endure. We do not believe that a struggle for existence should be inaugurated in our country between the great body of our people who rely upon wages for their support, and the horde of Chinese who will invade our shores if no obstacles are interposed to their coming. The evil effects of Chinese immigration are now only local and confined principally to California and with these it is not claimed that congress should or can interfere but it is the thought of this minority that congress should guard against the future and prevent an increase of the evil from further large additions to their number by immigration. In conclusion this minority would say that they coincide with the almost unanimous opinion of the citizens of California as expressed at the polls that Chinese immigration shall be checked and would recommend that congress and the executive should at once inaugurate measures to reduce to a minimum their further influx into this country. The majority report while expressly recommending the enactment of the fifteen passenger bill and also the abrogation of two articles of the Burlingame treaty, was signed by Representatives Wright, of Pennsylvania, Dickey, of Ohio, Murch, of Maine and O'Connor of South Carolina.

Resolution of Inquiry into the Diplomatic Relations of the U. S. and China

Representative Page has prepared and will offer for adoption at the first opportunity the following resolution. It is intended to emphasize the fact that nothing has been accomplished in the line of negotiation referred to:

WHEREAS It is asserted in public prints that under instructions from the department of state a treaty has been negotiated between the governments of the United States and China modifying what is known as the Burlingame treaty; therefore

Resolved by the house of representatives that the secretary of state be requested to furnish to this house if not incompatible with public interests copies of such instructions together with any proposition bearing upon the subject of said treaty modification made on one side by the government of the United States and on the other by China through the diplomatic representatives of each country.

Kearney, Kalloch & Co

SAN FRANCISCO March [illegible]—There was a large attendance at the sand lot to-day. Kearney was the principal speaker devoting his attention to the election and urging the election of French and the W P C freeholder ticket. A resolution was offered pledging the citizens of San Francisco that if the French and W P C ticket was elected agitation would cease for want of fuel. It was amended to read that agitation would take a more conservative turn but never cease until the Chinese question was settled and adjusted as [illegible].

At the Metropolitan temple this evening Mayor Kalloch addressed a large audience reviewing the whole history of the recent agitation and speaking in defense of his own course and that of his party. He gave a history of the much mooted conference with representatives substantially agreeing with the press report heretofore telegraphed. He concluded with the advice that the agitation should cease; that the people had grown weary of it, and so far as the Citizens Protective Union was intended to stop the agitation he indorsed it but urged that it was prudent in its methods of accomplishing that end.

MINING LANDS.

Protests from the Pacific Coast against Proposed Changes

[SPECIAL DISPATCH TO THE OREGONIAN]

WASHINGTON March 28—Pacific coast senators, representatives and delegates are in receipt of numerous letters from constituents interested in mining making inquiries as to the probabilities of favorable action by congress upon the recommendations of the public land commission and almost uniformly protesting against those features of the commission's bill which provide for doing away with the present system of ledge locations. It seems to be practically certain in view of the great pressure of other business and the questions involved in a number of the commission's propositions for radical changes in the land laws that no final action will be taken in their bill either in the house or senate during the present session of congress. Representatives of pacific slope interests will endeavor before the subject passes beyond the control of the house mining committee, to devise some satisfactory provision by which surface location of mineral claims shall be made on the pitch of a run and thus protect as equally as may be, locators of blanket ledges such as are found in Colorado and those of owners of lodes like the Comstock, characteristic of all mineral veins in California and Nevada and most of the territories. A large majority of the house mining committee thus far have manifested a disposition to consider the interests of Colorado mine owners as paramount to all other sections. The committee however, has unanimously agreed to take issue with the public land commissioner's proposition to test the jurisdiction of conflicting titles wholly in the surveys of the general and local land offices and will report in favor of keeping the present jurisdiction of courts.

The democrats of Clatsop county have nominated the following ticket: Representative W J Weber; sheriff A M Frombly; clerk R F Caufield; treasurer C H Page; county commissioners, J [illegible] Kimberlain and J F Barrows; assessor C H Stockton; treasurer L Hartwig; coroner B B Franklin.

McMinnville *Reporter*: Beef cattle are scarce in this section—more so than they have been before in the past ten years. In fact there are none to be had fit for the purpose except stall fed cattle and this will be seen reduces the supply down to a narrow point. While this unusually hard winter has not been at all destructive to stock so far it has done away with grass fed beef cattle and thus our usual supply is cut off.

The Marion county democratic convention which met at Salem on Saturday chose the following persons to represent that county at the state convention: L. Dailey, J. F. Fl[illegible]drdge, F L Bristow, R H Dearborn, Jas Simpson, Robert Thompson, F Meyer, David Hesye, D M Watkinds, L R Perkins, R D Boon, J P Anderson and George W Belt. The attendance at the convention was unusually large for this season of the year a time when all the farmers are busy seeding.

The democratic convention for Clackamas county met at Oregon City on Saturday and [illegible] the following delegates to the state convention: [illegible] W. H. PRESIDENTIAL TALK.

Indiana Solid for Blaine

CHICAGO, March [illegible]—A [illegible] Washington special [illegible] claims [illegible] [illegible] this claim it is said [illegible] from every [illegible] in the state.

Two Millionaire Candidates

NEW YORK March 28—The [illegible] says: It is whispered among influential democrats that the plan of the leaders is to take the democratic nomination [illegible] unless [illegible] be able to nominate [illegible] to cause the nomination of two millionaires, Henry B Payne of Ohio and James E English of Connecticut, as candidates. Payne has two sons who it is stated have said they would throw $[illegible],000 into the states of Ohio, Indiana and New York to secure their father's election.

Hopeless Democratic Tangle in Virginia

WASHINGTON, March [illegible]—The situation in Virginia is causing considerable anxiety among democratic leaders and political emissaries have been sent into the state to harmonize the factions of the party which appears now to be hopelessly divided. Gen Mahone, leader of the readjusters says that the readjusters and bourbons can never be reunited and that it is a waste of time to talk of it. The readjusters will not unite with the regular democrats in sending a delegation to the Cincinnati convention but will hold themselves independent and nominate an electoral ticket of their own. If Grant is nominated it is probable that the republicans and readjusters will unite as they did in the last election, in which case Grant is considered sure to get the electoral vote of Virginia and the democrats are sure to lose several members of congress from that state for in case Grant is nominated the republicans will support the readjuster candidates for congress in return for their support of the republican candidate for the presidency. In case Grant is not nominated it is the plan of the readjusters to place a third electoral ticket in the field. In such a case the republicans will have a plurality in the vote of the state. The democrats have no chance to carry Virginia unless what now seems impossible occurs.

Anti-Grant Republicans Organizing in New York

NEW YORK, March 28—The anti third term republicans who believe Grant's nomination can only be prevented by organized opposition are forming associations in the city and state. The most extensive body is the New York State Republican Reform League. It extends to every county in the state except New York, Kings and Erie, and is expected to be organized in Brooklyn, New York and Buffalo within two weeks. The purpose of the league is to prevent Grant's nomination and to do what it can to defeat him if he should be nominated. Permanent headquarters will be established here next week. Communication with influential republicans throughout the state shows that the feeling against a third term is very general in republican circles. In every county the independent republicans who were known as scratchers in last year's campaign have reorganized. The scratchers are opposed to the nomination of Grant, and as a means of preventing that result will hold public meetings and circulate anti third term documents.

A writer in the *Sun* gives the following summary of the presidential outlook from Washington. It is well known in Washington circles that Grant will cut short his tour in Mexico and hurry back to the United States by the urgent advice of those who have his canvass particularly in charge. They say it doesn't look well for him to seem unwilling to stay in his own country except when he is governing it on a large salary. The belief that Grant will be nominated does not gain strength in the capital. It is admitted on all sides that Sherman is a failure. The opinion gathers meantime that after all and in some way or other the outcome at Chicago will be Elihu B Washburne.

Pennsylvania is against the Unit Rule and for Blaine.

[From the Philadelphia Press.]

The sentiment of Pennsylvania is against the unit rule. It regards this measure as unsound in principle and unwise in policy. It objects to the assumption of a state convention to constrain and repress the free untrammeled expression of the rightful representatives of the districts. There are honest differences among republicans—differences which should be respected—as to the best presidential choice. Until the national convention closes the question it is the unchallenged privilege of every republican to indicate his preference and seek success in every legitimate way. Notwithstanding the action at Harrisburg it is plain that the predominant sentiment of Pennsylvania still finds utterance through the press and through all the channels of popular expression is in favor of Mr Blaine. But if this enthusiasm for that gallant leader did not pervade the state, as it undeniably does, if it were limited to a single district, it would still justly present the same claim to the right of full, independent utterance. It is the district which elects. It is the republicans of the district who are, or ought to be represented, and it is their voice which does or should speak for the voice of their delegates.

What Indiana Can Do.

[From the Chicago Tribune.]

Indiana republicans have the right to be heard. They say they can elect a republican to the United States senate to succeed McDonald if Washburne or Edmunds, Windom or Blaine is nominated for the presidency. They say they cannot do this on the third term issue. If Indiana can elect a republican, with the other states that are expected reasonably to replace democrats with republicans such as Connecticut and New Jersey the senate will be a tie and a republican vice president would decide on the right side. Can the republican party afford to throw away this chance?

These are Plain Words

[From the Philadelphia North American.]

The worst enemy of Gen Grant could not possibly wish him to occupy a more humiliating position than would befall the illustrious warrior if after having deliberately become a candidate in a bitter partisan struggle for the nomination for president he should have to be abandoned by his friends in advance of the meeting of the convention in obedience to a general revolt of republican public sentiment. Yet this now seems to be the prospect.

FIT TIME FOR REFORM

Now that both parties are putting in the field their tickets for the legislature it is highly important that efforts be made in every county to commit candidates to necessary measures of fiscal and administrative reform Our revenue laws sadly need reconstruction It is notorious that they allow monstrous inequalities of taxation that they offer direct inducements to concealment of property that they permit every ingenious and unscrupulous taxpayer to get rid of a great part of his just proportion of the public burdens and that under their operation the taxable property of the state though increasing rapidly in fact, shows no increase whatever on the rolls Men with intelligent views and purposes as to this question should be sent to the legislature Moreover the people should pledge candidates for the legislature to measures of reform for county administration In most counties the taxes for county purposes can easily be reduced one third to one half This can be done by enactment of two or three simple and easy measures Put sheriffs and clerks on salaries and require all fees to be covered into the county treasuries amend the justices's act so as to stop abuses in working up cases for costs and require witnesses for the state to testify without fee Proper retrenchment on one side and a law to secure just valuation of property on the other will reduce our taxation one half and distribute it with some approach to equity and justice Now is the time for people to make an effort to secure these things The result can be reached only through an agitation which will create a general public opinion in favor of reform measures Require pledges of candidates that they will faithfully endeavor to secure the objects desired and let there be no hesitation in "scratching" the candidate of any party who is not willing to place himself on the record Our taxes are three per cent. It is entirely practicable to reduce them one-half To make the measure complete repeal of the high school law and refusal to appropriate any more money out of the treasury for state colleges should go in with the general scheme of retrenchment. If the people have any deeper interest to serve in the legislature now chosen than this general reduction of burdens which oppose them we don't know what such interest is

SUBSIDENCE OF THE "BOOM.

It has long been apparent that democratic hopes for November are based chiefly on expectation and desire of a third term victory at Chicago Grant's nomination, democratic newspapers say, would furnish a perfect magazine of most formidable materials for an offensive campaign. It is certain that the whole democratic press and all the leading democratic politicians are for Grant, to the extent of eagerly desiring his nomination It is noticeable, too, how they insist that he will be nominated, how reluctant they are to admit the existence of any facts or indications which tend to show an opposition to him by which his nomination is likely to be prevented, and how deeply their disappointment is manifested when there are signs to this effect too clear and too prominent to be ignored

It has long been apparent that Gen Grant could not be nominated without a fierce struggle which would leave dissensions behind it The original plan of the "boomers" was to carry the great states by a *coup*, in the expectation that the smaller states would fall in after them. But the two chief states were secured only upon a narrow margin after a struggle in which the whole power of political bosses was strained to the utmost, and it is known that even their delegations can not be held solidly for Grant. So far has the capture of Pennsylvania and New York failed of the object proposed, that the manner in which it was done and the vigorous protest which almost prevented it, have strengthened in every part of the country the opposition to Grant There is no sign that he is likely to get delegates from any other northern state, while the result in North Carolina and Texas shows that he will by no means have the united vote of the southern states in convention It is certain now that if nominated at all he would gain it only by a very narrow majority, after a bitter contest The circumstances then would leave it open to serious doubt whether he could possibly get anything like the united vote of the party in the election

Recent dispatches foreshadow the collapse of the "movement" Good judges consider it extremely doubtful whether his name will be mentioned in the convention He himself sees how formidable the opposition is, and it will grow more formidable all the time till the convention meets. The "boomers" will not yet withdraw him, as their object is to use his name to force other candidates off the track, and then bring in a new man The most probable man is E B Washburne.

The chances seem to be that Mr Whiteaker will be renominated for congress. It is not likely that he will be in Oregon during the canvass. This will be fortunate for him, since he is not strong at the hustings and will make a better figure at a distance than at home His talents do not enable him to appear to advantage before the public but when he is at the distance of Washington people of Oregon cannot inspect him too narrowly, and he may almost pass for the old Roman orator's *aliquid vastum infinitumque* In 1878, Mr Whiteaker virtually had the race all to himself This time an opponent will be presented who will limit his vote to his party's actual strength or something less,—for Mr Whiteaker cannot get the entire democratic vote. It will be lucky for him if congress do not adjourn in time for him to return and attempt a canvass of the state. He has certain elements of popularity which he should not impair by attempting another series of addresses before the people. The prophet speaks of those whose "strength is to sit still" and Mr Whiteaker may with some propriety be classed as one of these

The Northern Pacific railroad has encountered a singular difficulty on its Dakota division from ice, caused by the frequent alternation of thawing and freezing weather during the latter part of the winter It seems there has been comparatively little snow on the Dakota prairies but by reason of the grass having been burned off by the prairie fires in the fall which overran the whole adjacent region the frozen ground everywhere presented a surface as hard and smooth as a polished floor and what little snow there was which the grass if preserved would have held was swept over this smooth surface before the winds—and piled up on the railroad track until it was melted by the thawing weather and then frozen again so as to form a casing of ice upon the track which is removed slowly and with difficulty This is the first time this difficulty has been encountered and it is not likely to be met with again unless in a very exceptional season

For the fiftieth or hundredth time court and jury have decided against a life insurance company that resisted payment of a death claim because the insured committed suicide. The widow of a Brooklyn lawyer recently received $4351 the full amount claimed having proved that her husband killed himself while temporarily insane. This case accordingly goes upon record in company with its predecessors as evidence that juries will accept the general theory that no sane person commits suicide and a life insurance company cannot be relieved from its responsibility when the estate shows that the decedent was not accountable for his actions Contests of this character injure the life companies for their defeat usually happens

There was very little departure in the county democratic convention on Saturday from the programme as printed in THE OREGONIAN Saturday morning Fifteen of the eighteen delegates who had been named were elected THE OREGONIAN is not a democratic paper but it takes at all times sufficient interest in the affairs of the democratic party to give the news to that party in advance of the organs

Do not Confound the WESTERN WHITE LEAD with any Other California Brand. Its Superiority is Beyond Comparison

The Western White Lead Company have the pleasure to announce the most complete success of their brand of White Lead It is far superior to any other Lead made in California Nothing but the finest material is employed and no care or expense will be spared to maintain its present high standard and reputation

WESTERN WHITE LEAD will not be sold in competition—so far as price is concerned—with inferior brands The manufacturers do not offer Western Lead as a low priced brand They offer it as the BEST It is in reality however, the cheapest, even at higher cost, because it will go farther look better and last longer than any other California Lead

WHITE LEAD may be perfectly PURE and yet POOR Unless made from the very finest material and prepared with the greatest skill and care, it will turn yellow or become otherwise discolored, and will chalk or peel off

Examine work a few months old, which has not been finished with prime Lead, such as "Atlantic" or "Western" and these defects will be apparent

ANALYSIS:

San Francisco, Feb. 24, 1880.

MESSRS WHITTIER, FULLER & CO

Gentlemen—I have made a careful analysis of PIONEER WHITE LEAD, which I find to be PURE and entirely WITHOUT ADULTERATION. It has great BODY or COVERING POWER when mixed with Oil, in which it differs from some other samples of Pure White Lead I have examined.

BETHEL ANNIVERSARY

Second Annual Meeting of the Portland Seamen's Friend Society—Reports, Collection Election of Officers

The Portland Seamen's Friend society held its second anniversary meeting in the Congregational church in this city last night Dr G H Chance presiding

Rev J H Acton offered the opening prayer

The meeting was large interesting and spirited The reports of the secretary, [illegible] and of the chaplain exhibited a [illegible] condition of the finances and afforded evidence that the philanthropy of [illegible] and Bethel is eminently practical and attended with very encouraging results

The address on Sailors Bethels by Rev A S Coats was clear and forcible Its statements set forth the valuable qualities of these institutions

In the course of his remarks Mr [illegible] read the following communications

BRITISH VICE CONSULATE
PORTLAND March [illegible] 1880

Chaplain S[illegible]—DEAR SIR The need of a sailors home in this port becomes daily more apparent. Numberless instances have come under my notice where its shelter would have been gladly availed of by seamen possessing some means and who in a very brief space of time were stripped of all they had and reduced to destitution I [illegible] that some action will be taken by the Seamen's Friend society to erect and carry [illegible] such a home as would by its good influence raise the character of our [illegible] and excite them to sobriety Believe me yours very sincerely
JAMES LAIDLAW British Vice Consul

P S—I may say that during the past four years [illegible] seamen have passed through my hands an average of 583 per annum J L

SHIPPING COMMISSIONER'S OFFICE,
PORTLAND March 26 1880

Dear Chaplain Stubbs—I beg leave to recommend to the citizens of Portland the good work you are engaged in namely the amelioration of the condition of seamen and I sincerely hope that the friends of seamen assembled at the anniversary meeting will take decided action looking to the erection of a Bethel Home This need is emphasized because the erection of a sailors home will contribute in a large measure to shield seamen while in our midst and by its Christian atmosphere will [illegible] them to habits of sobriety and economy Sincerely HENRY I HOYT
Shipping Commissioner

Mr John McNeill the assistant missionary made an excellent showing of his labors during the past three months

Following a brief statement by Dr Lindsley a collection was taken up amounting to $[illegible] in cash and $112 in pledges. In addition to which one of Portland's citizens gave assurance that he would donate one twentieth of $6000 necessary to build the proposed Sailor's Home in this city another pledged $100 It would seem from these facts that the Portland Bethel enters upon its third year's labors with encouraging prospects

The following list of officers were re-elected for the ensuing year Hon H W Corbett, president Dr G H Chance, vice president E Quackenbush, Esq secretary and treasurer Rev R S Stubbs chaplain and superintendent

The choir of the Congregational church deserve especial mention for the excellent music furnished by them at short notice for the occasion

Resolutions of thanks to the American Seamen's Friend Society for generous financial help since the organization of this one of its numerous auxiliary societies were presented by Dr A L Lindsley and voted by the assembly

Rev J A. Cruzan read the scriptures and Rev T L Eliot offered the closing prayer

The audience then sang the doxology and were dismissed by Dr Lindsley who pronounced the benediction

OREGON STATE PENITENTIARY

THE OREGONIAN'S regular correspondent at Salem sends the following

A visit to the Oregon state penitentiary and a comparison of its present surroundings with that of the past will at once convince even the most skeptical that under the present management numerous and important improvements have been made—Mr Watkinds assertion to the contrary notwithstanding True but few buildings have been erected still commendable progress has been made Fences have been built ditches dug where by a large amount of heretofore unproductive land has been reclaimed and utilized in a manner that will save the state a large expense in the purchase of grain and vegetables sufficient of which will no doubt be raised to supply the demands of the prison Other large tracts of land which from lack of proper care have heretofore been unproductive have been enriched and subsoiled in a manner that will this year make fertile gardens and fields New roads have been constructed and the entire property cleared up and thus made remunerative rather than an expense to the state Inside the stockade nearly every foot of ground has been utilized and one of the finest if not the finest gardens in the state now occupies the place where but two or three years ago naught but piles of tan bark and rod after rod of unproductive soil greeted the eye Fertilizing and irrigation has effected here a transformation that is at once pleasing to the eye and of practical benefit to the taxpayers of the state Warden Miller may well take pride in his gardens and grain fields and were he only to introduce that peculiar style of bookkeeping alluded to in THE OREGONIAN a short time since the prison could very easily be figured into a self supporting institution

Modesty.

Modesty is to a woman what the delicate bloom is to the peach—its greatest beauty but once gone no human power can restore it Many modest women suffer in silence for years with the most painful affections of the delicate vital organs of the body rather than to impart the knowledge of their sufferings to a physician This great army of martyrs will be rejoiced to know that at last a purely vegetable and harmless remedy has been discovered which cures immediately all diseases and weakness of the kidney and bladder no matter of how long standing or of what nature It is the wonderful OREGON KIDNEY TEA which is sold by all druggists and challenges the world

I Wish Everybody to Know

NOTE FROM MR STANLEY

PORTLAND March 2[illegible] 1880

TO THE EDITOR OF THE OREGONIAN

I have seen Mr Watkinds' letter in a recent number of THE OREGONIAN and will read it as soon as I have time as he not only mentions my name but offers $100 to some one if he will prove from Watkinds books and reports that he did or did [illegible] to something which he should or should not have done, or that he said something at some time which was or was not true This offer being in the nature of a denial or affirmation the probabilities are that the converse of the proposition is true

I shall therefore proceed to achieve that $100 but I must first know to what fund it belongs—if it is a part of the steal in those iron cells purchased of Hawley [illegible] or if it is some of the money Tom Cross paid for those penitentiary hogs or if he won it from the guards and convicts at draw poker and other games or if it belongs to the regular Hewer & Co dividend This may seem a superstitious technicality to Mr Watkinds but it is of so much importance to me that I will not touch the money until I know how he got it

I am informed that he cyphers down the cost of the penitentiary to the state since his administration to five cents per day for each convict Such modesty is charming when by charging $3 75 per day for trimming lamps and waiting [illegible] the penitentiary would not only have been self supporting but have paid a revenue to the state

I shall take up his letter when I have time and when I get through with it he will probably wish that Bill Watkinds was the name of some other man W STANLEY

PORTLAND
CITY HOMESTEAD.
THE LAND IN THIS ENTERPRISE LIES adjoining the city and is only from ten to fifteen minutes walk from the court house and a less distance than that from one of the best public schools in the city It is divided into
One Thousand and Twenty-Four Lots,
Fifty by one hundred feet in size with streets sixty feet wide Two hundred of these lots will be reserved for those who desire to improve and build this summer and fall These lots will be sold on the same liberal terms that are offered in the Homestead proper
Price.
All lots will be sold for $100 each payable in instalments of $5 per month or the small sum of 16⅔ cents per day No interest will be charged and a good and sufficient Bond for Deed will be given upon the payment of the first installment of $5, and a Warranty Deed upon receipt of last installment both without expense to purchaser
Appreciation of Values.
By reference to The Oregonian of Feb, 15th, it will be found that city property has advanced twenty five per cent during the past year As there has been no excitement, the rise is wholly attributable to the increasing immigration and the growing confidence inspired by our numerous railroad enterprises and the development of our many natural resources, that have hitherto slumbered for lack of energetic men to develop them
It is True,
That of all real estate investments the homestead plan is the best and safest, as all who invest are interested in making the whole property more valuable To illustrate Suppose A builds a house on his lot and B owns a lot adjoining B gets the benefit of A's improvement while A is not injured thereby This philosophy will apply to the entire property
We have donated a lot to each of the principal churches for church purposes
In addition to the above two lots are set apart for public school purposes
Division.
The division of this property will take place when the lots are all sold or in any event not later than the
28th February, 1881,
at the Mechanics' Pavilion commencing at 10 o'clock A M public notice of which will be given by publication in two principal journals in the State.
It will be made in the manner decided upon by a majority of the purchasers in the Homestead Parties interested may appoint proxies to act for them if they desire to do so Parties who do not attend at the time of the division either in person or by proxy will be bound by the plan settled upon by the majority of those who do so attend
It is suggested by the purchasers that division might be made by placing the number of each lot and block in a wheel or box and the name of each party interested in the homestead in another then a name will be drawn from one and a number from the other and the lot so drawn deeded to the person whose name is so drawn when all payments are made
All but the first Installment must be paid at the Banking house of Ladd & Tilton in the city of Portland
Persons from a Distance
Desiring a share may forward $5 00 to the General Manager and a bond will be immediately forwarded
Money may be forwarded by registered letter money order or Wells Fargo & Co's Express, at my risk

New York, Boston and Philadelphia Freight Markets

[SPECIAL DISPATCH TO THE OREGONIAN.]

NEW YORK, March 27.—There is very little if any improvement to note in the freight market via Cape Horn. There has been more inquiry in consequent upon advanced rates demanded by steamer, and a few shipments have been made by parties who have been shut out by reason of the railroad agent refusing to acknowledge the rate guaranteed by the Mail Company before the agreement with the railroad. Outside this there is very little doing by clipper, although it is probable that later in the season there will be some improvement, as California advices speak of improved business feeling. Rates of freights are irregular and all agents are active competitors for whatever freight is offered, and are willing to make a cut to get it.

Overland freights show a gradual improvement, and more orders are coming to hand chiefly for lower classes of goods, such as groceries, hardware, etc.

Steamer freights are moderately active, but there is less doing than when under the management of the mail company itself. Many shippers have put their goods on board under the impression that they have what might be termed a fair rate; but when they receive their bills of lading they will discover their error, but too late.

Freights at Boston for the cape route are "nil," and no vessel is yet on berth. Railroad freights are also rather quiet, shipments including 66 bbls. and 200 kegs of syrup.

Freights at Philadelphia are very quiet and ships load slowly, the *Red Cloud* being still in berth.

Chicago Wheat Market.

[SPECIAL DISPATCH TO THE OREGONIAN.]

CHICAGO, March 27.—The wheat market has been only moderately active, but there has been a feverish, unsettled, expectant feeling that caused buyers and sellers alike to stand aloof and wait developments. There is so strong a bear element that the ordinary speculators are inclined to let them have a deal for the present, biding their time which they say will be when the stock in store begins to show rapid diminution, when Europe becomes more ravenous and when bad spring weather, which seems to have inaugurated to-day, makes itself felt in the grain market. All this winter there has been a balmy atmosphere and dry ground, so that weather prophets forecast a wet, windy, cold and late spring. The bears, however, have decidedly the best of trade for the present and seem determined to back their opinions and secure further triumphs and advantages.

The Boston Wool Market.

[SPECIAL DISPATCH TO THE OREGONIAN.]

BOSTON, March 27.—The wool market is comparatively quiet. Sales this week aggregated 2,164,800 pounds, a large portion of which was foreign. Notwithstanding the quiet tone of the market there is a very firm feeling. During the past week there was very little movement in domestic fleeces which are rather neglected, but holders are confident that full prices will be obtained for a comparatively small supply remaining on hand. Some large mills are turning their attention to Australian, and supplies of this description will soon be exhausted. In domestic combing and delaine, nothing of consequence was done, but there continues a good demand for English and Irish combing. Fall California is quiet. Pulled wools steady and firm. Oregon 23@45c, fall California 26@33.

Gold and Stock Company's Reports.

SAN FRANCISCO, March 27.

Butter—There is very little demand; evidently there is an increasing absence of confidence. The market is very soft; all stocks are declining.

Eggs—The market unsettled and rather easier.

Hides—Dry and kip and calf 19@19½c. Pelts short to long wool, the market is very stiff at $1@1 50, extra long higher.

Dried apples—Choice quartered bxs and do sks 9c, sliced 10@11c, machine sliced 11@12c; for these goods the demand is good, supplies are very light.

Wheat—Shipping Cala good, held for $1 90; extra choice Cala milling $2, but buyers bid 2½@5c higher.

SUICIDE.

A distinguished Scientist once said: "No man with a strong, healthy stomach ever committed suicide, yet many suffer the torments of the damned with dyspepsia, when a single bottle of DR. MINTIE'S ENGLISH DANDELION LIVER AND DYSPEPSIA PILLS will give relief, and, if persisted in, cure the worse case of this distressing trouble. This pill cures torpid liver, biliousness, sallow complexion, foul breath, sick headache, heartburn, pain in side and back, removes pimples from the face, regulates the bowels, is sugar-coated and guaranteed purely vegetable. It acts directly on the coating of the stomach and on the liver; is suited to any climate, wet or dry weather. Beware of imitations; genuine has cut of lion on outside wrapper. Price, 50 cents. Sold by all druggists. Hodge, Davis & Co., Portland, wholesale agents.

How to Save Money.

Instead of going to a doctor, if you have Bright's Disease, Diabetes, pain in back and loins, smarting, inflammation, calculi, brickdust deposit, or any trouble of the kidneys or bladder, buy a bottle of DR. MINTIE'S NEPHRETICUM, the great *Buchu Compound*. It is the best prescription ever compounded for these troubles. Abrams & Carroll, Wholesale Druggists, say: "*We regard Nephreticum as the best Kidney and Bladder Remedy in the market.*" Woodward, druggist, Portland, Oregon, says: "Everybody speaks highly of it." Childs, druggist, Portland, says: "Sold lots of it; it always does the work." Many have been cured of obstinate kidney complaints after the doctors gave them up. Sold by all druggists. Price $1 00 a bottle, or six bottles for $5. Hodge, Davis & Co., Portland, Wholesale Agents.

Sir Astley Cooper's Vital Restorative.

The great English remedy—has made more cures of Nervous Debility, Seminal Weakness, Lost Manhood, nocturnal emissions, lassitude, inability for mental labor, despondency, and such diseases as are induced by youthful follies and excesses, than all other medicines combined.

It is not a stimulant nor excitant, is perfectly safe to take, is not a *quack nostrum*, and produces results that are wonderful.

Price, $3 a bottle. Four times the quantity, $10. Buy a bottle. It will not disappoint you. Hodge, Davis & Co., wholesale agents.

Swallowing POISON

Spurts of disgusting mucous from the nostrils or upon the **tonsils**, Watery Eyes, **Snuffles**, Burning in the Ears, **Deafness**, Crackling sensations in the Head, Intermittent Pains over the Eyes, **Fœtid Breath**, Nasal Twang, Scabs in the Nostrils, and Tickling in the Throat are

SIGNS of CATARRH.

No other such loathsome, treacherous and undermining malady curses mankind. One-fifth of our **Children die** of diseases generated by its **Infectious Poison**, and one-fourth of living men and women drag out miserable existences from the same cause. **While asleep, the impurities** in the nostrils are necessarily **swallowed into the stomach** and **inhaled into the lungs to poison** every part of the system.

Dr. Wei De Meyer's Catarrh Cure absorbs the purulent virus and **kills the seeds** of poison in the **farthest parts** of the system. It will not **only relieve**, but **certainly cure** Catarrh at **any stage**. It is the **only remedy** which in our judgment, has ever yet **really cured** a case of **Chronic Catarrh**.

CHRONIC AND DIFFICULT DISEASES.

DR. BRENAN WILL GUARANTEE TO CURE any form of disease of the generative organs or private disease.

He has become an expert in the treatment of diseases, weakness and derangement of the reproductive organs of both male and female, including diseases caused by the

FOLLIES OF YOUTH,

Such as SPERMATORRHEA, or SEMINAL WEAKNESS, or LOSS OF PERFECT VITALITY. Nearly two-thirds of all the Chronic Diseases spring, either directly or indirectly, from some derangement of the sexual system, and yet this subject is neglected by the majority of the Medical Profession.

I know that persons who are unfortunate enough to be afflicted by any form of sexual disease have a delicacy in calling upon the proper physician in time, from a sense of modesty and sometimes from ignorance, and permit those diseases to exist until their constitutions become corrupted, their organization broken down and the hope of future happiness blighted, until death becomes a welcome messenger to carry them out of their miserable existence.

Everything strictly confidential under all circumstances.

Lost manhood perfectly restored.

Catarrh, Bronchitis, Throat Diseases, Skin Diseases, Rheumatism, Kidney Complaint and all Diseases of the Eye and Ear, Stomach and Bladder, he can cure without fail.

Consultation free, and a list of printed questions sent to those living at a distance who cannot consult him personally. Enclose postage stamp for it.

DRY GOODS!

The year 1880 promises, from present indications, to be the most prosperous season Oregon has experienced since its admission to the family of States. Immigration will pour in, railroads will be built, bridges erected, and localities hitherto inaccessible will be connected with the business centers and distributing depots of the State. This will augment business and require large supplies of merchandise to meet the changed condition of things.

We have anticipated the increased demand that will spring up for all classes of goods, and our purchases of

ASSIGNEE'S SALE IN RE OREGON IRON Works, bankrupts. In Bankruptcy. By virtue of an order of the Honorable District Court of the United States for the District of Oregon, made on the 26th day of February, 1880, the undersigned, Assignee of the "Oregon Iron Works," a corporation bankrupt, will, on Thursday, the 29th day of April, 1880, at 10 o'clock A. M. sell at public auction, on the premises at Albina, opposite Portland, Oregon, the following described real and personal property, belonging to said estate, to wit: That valuable property known as the "Oregon Iron Works," consisting of River Lots Nos. Sixteen (16), Seventeen (17) and Eighteen (18), situated in the town of Albina, Multnomah county, Oregon, together with the wharves, buildings, fixed and movable machinery and tools pertaining thereto. The Iron Works are the most complete and best fitted up with first-class machinery and conveniences of any north of San Francisco, and comprise a first-class machine-shop, together with pattern shop, blacksmith shop, moulding room and storage building and a first-class boiler shop, newly built, with new machinery with the latest improvements. The Works are fitted with machinery adapted to the turning out of light and very heavy work. The stock of patterns is very extensive and valuable. The blacksmith shop is provided with a large steam hammer and every convenience. The buildings are well and substantially built, conveniently located on the river, with wharves connecting main buildings and boiler shops with the river. MIDDLE AGED MEN.

There are many at the age of thirty to sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.
